

AC1C

360 Smart Camera

2K HD

130° wide-angle
vision

Full-color image
in low light

Two-way talk

AI human figure
detection

Easy installation

**Easy installation that
only takes 3 minutes**

Vertical placement

Magnetic absorption

Attach with
3M adhesive

2K HD quality, clear and vivid in every frame

Clear and smooth vision thanks to the 2304 x 1296 resolution, accurately recording any detailed changes in the monitoring area.

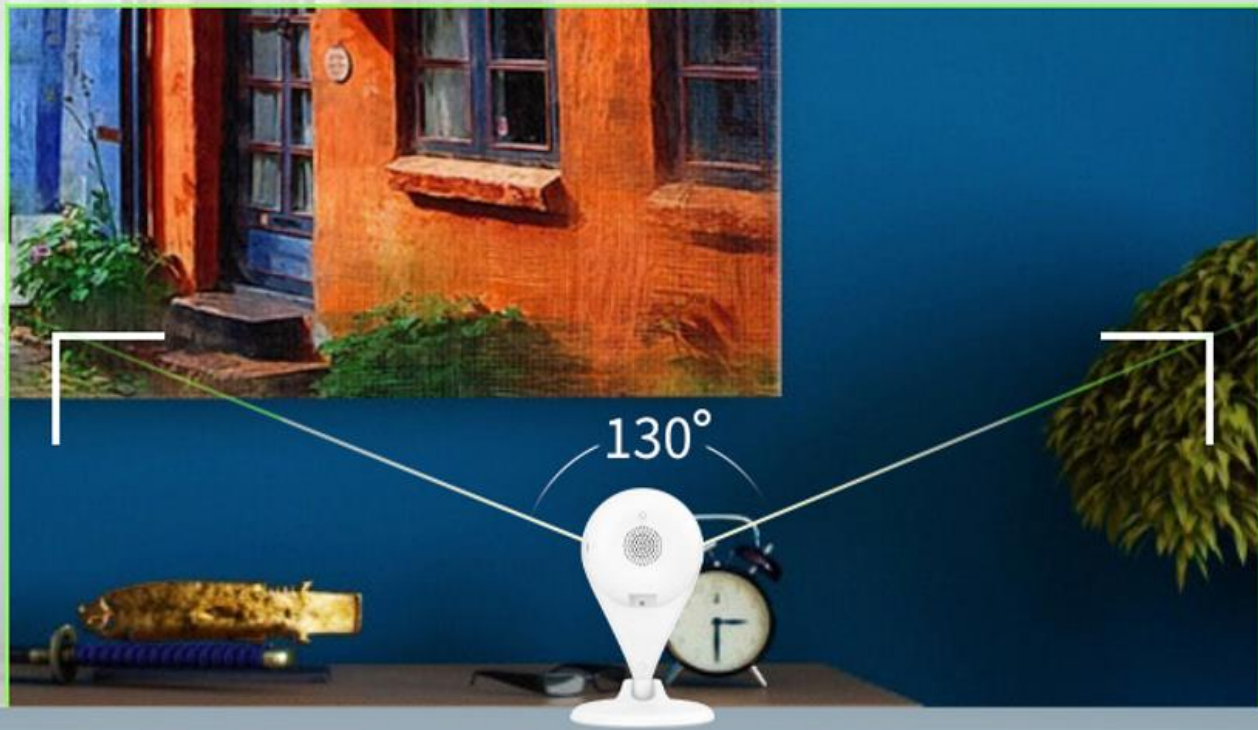

NORMAL

2304 x 1296 Resolution

Extensive wide-angle field of view, not even the smallest detail is missed

130° wide-angle vision, missing no details

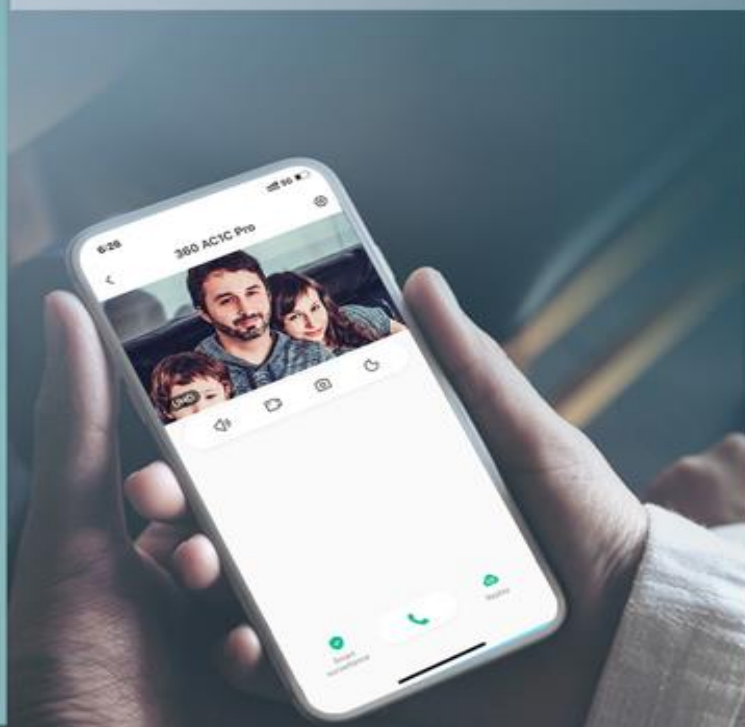

AI human figure detection with notifications for abnormal situations

Accurately recognize and detect any abnormal figure movement in real-time and immediately inform you with alarm messages.

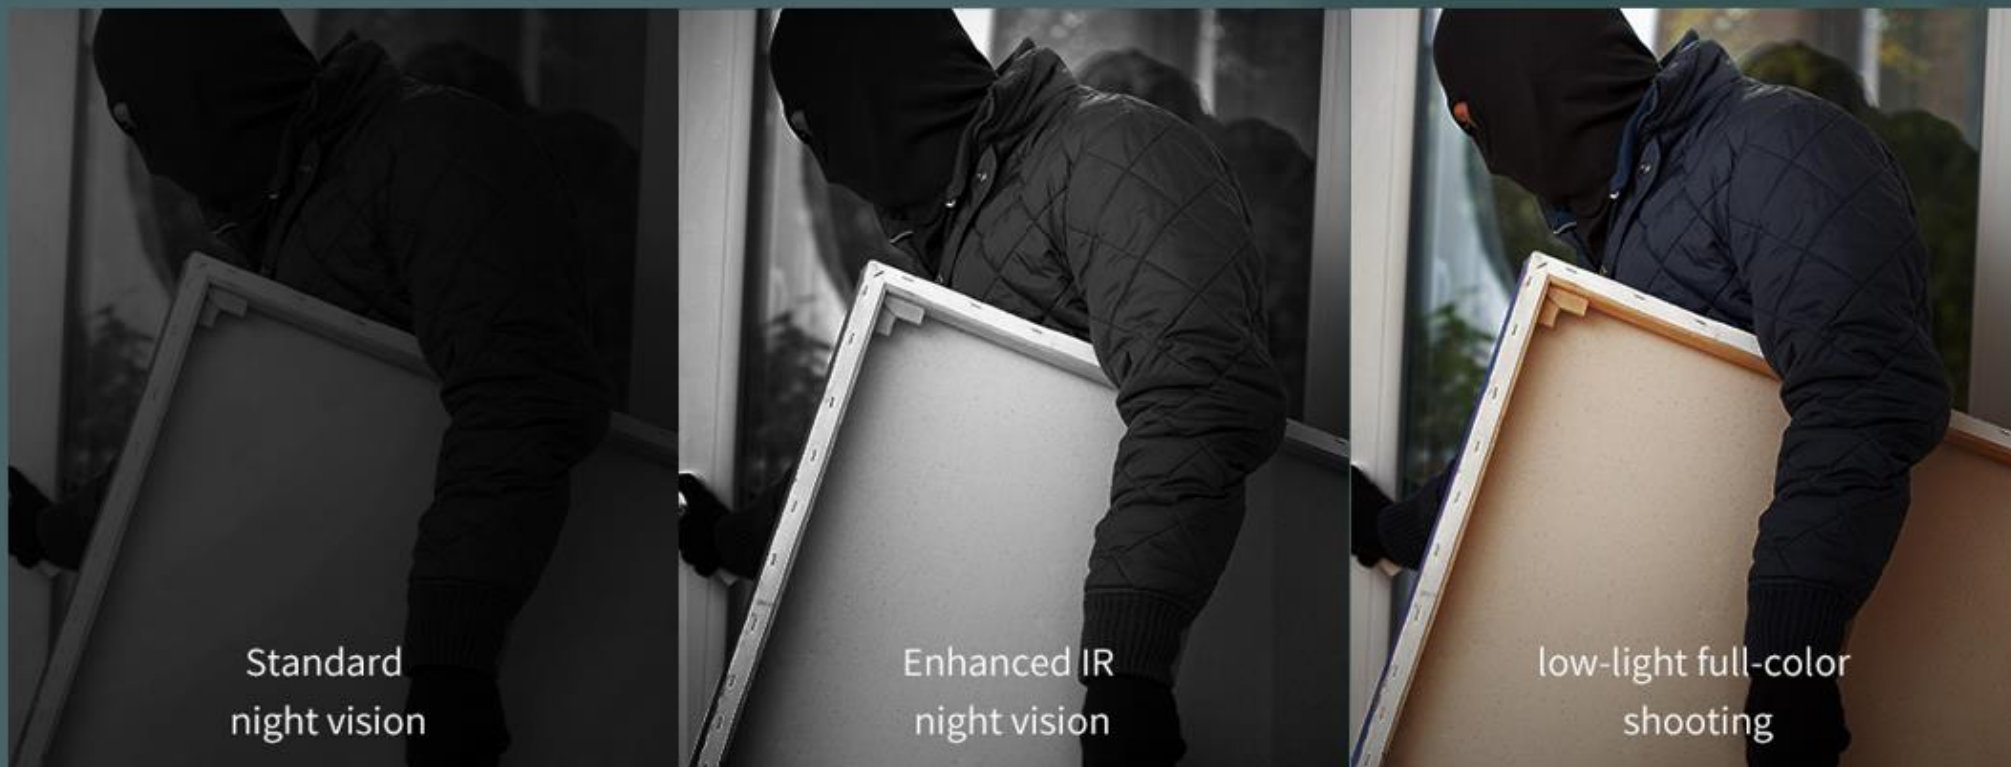

Two-way voice call brings love closer

Professional noise canceling algorithm can filter out background noises. With a wide pickup range, loved ones will always be at your side no matter how far you are.

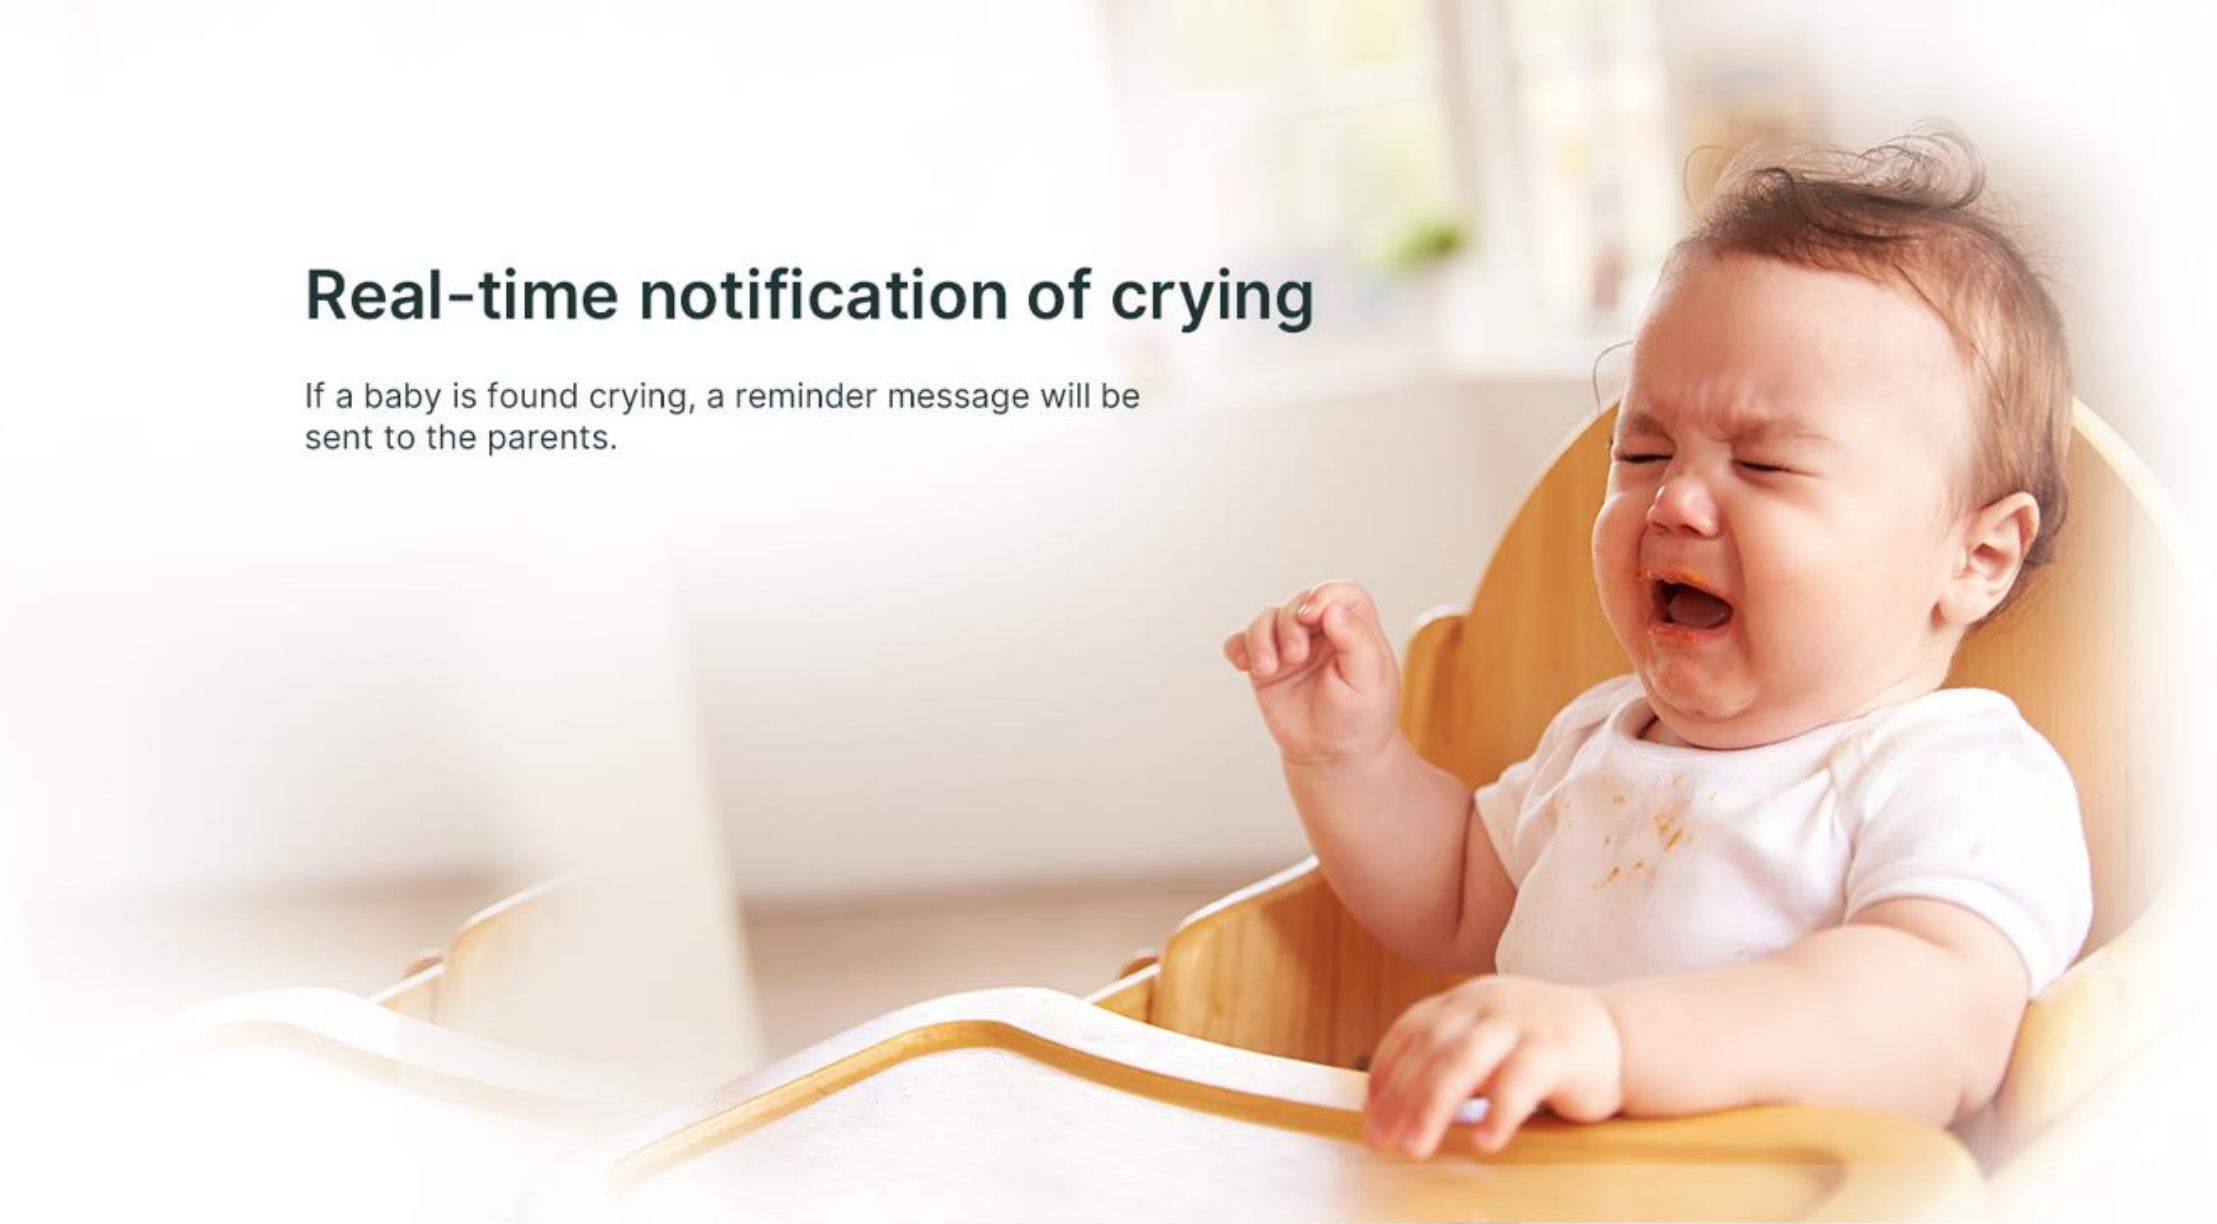

Enhanced infrared night vision + full-color image even in low light, monitor everything at night

At poor lighting conditions, videos and images will be taken focusing on obvious details and features for clearer vision, even at night.

Real-time notification of crying

If a baby is found crying, a reminder message will be sent to the parents.

Two storage modes for video, playback as you like

Cloud recording

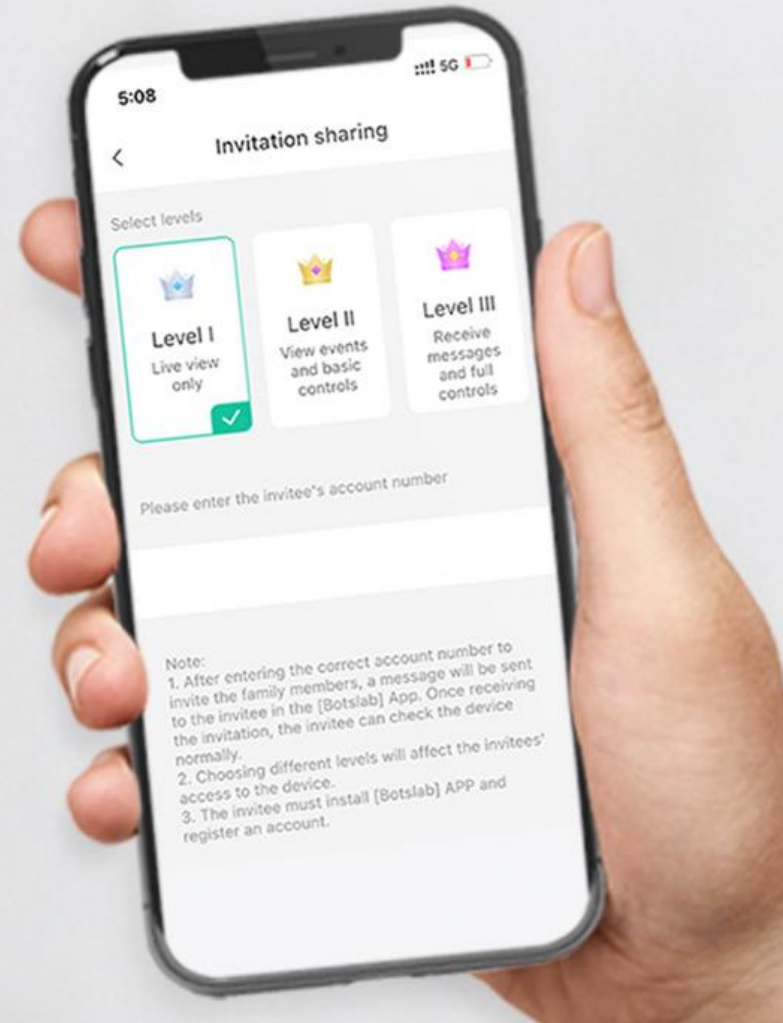

Memory card recording

Easy to share, have more fun with others

Share your camera screen with up to 5 family members or friends by setting access permissions.

Declarations

1. *Infrared night vision: The night vision effect is subjected to the environment and therefore may vary. The actual effect of the product shall prevail.*
2. *Sound detection: The recognition algorithm will be continuously optimized and is subjected to the environment and therefore may vary. The actual effect of the product shall prevail.*
3. *Storage: Free cloud storage up to 36 hours with each video of 10 seconds. Upgrading needs a separate purchase; memory cards in FAT32 format, with a speed above CLASS4, and a maximum capacity of 128G are supported. Memory card is not included in the product package.*
4. *Real-time push function: Due to limitations of the mobile operating system versions, message push channels, etc., a user may not always be able to receive the alarm messages for suspicious movements in real-time after a message is pushed. These situations have nothing to do with product quality and performance. 360 does not assume any responsibility but will do its best to reduce the impact on users.*
5. *Product pictures and screen displays on the preceding pages are for illustration only. The actual product (including but not limited to appearance, color, and dimensions) and screen display (including but not limited to backgrounds and pictures) may be slightly different. The actual product and screen display shall prevail.*
6. *The data on the preceding pages are theoretical values obtained from 360 in-house labs and under specific test environments. Actual data may be slightly different due to individual product differences, use conditions, and environmental factors. Actual data shall prevail.*
7. *Since product batches and production and supply factors change all the time, 360 may adjust and revise text expressions, picture effects, and other content on the preceding pages in real-time to ensure the accuracy of product information, specifications, and product features to match the actual product performance, specifications, indicators, parts, and other information. Necessary modifications and adjustments will be made without prior notice.*
